Job Opportunity: Software Developer
Location: Dar-es-salaam, Tanzania
Engagement Type: Project-based (Part-time)
Start Date: Immediate
Application Deadline: 15th August 2025

About the Project

We are in the process of transforming a comprehensive Excel-based worksheet into an intuitive, user-friendly web-based application.

The tool is already designed in Excel. We are now seeking a passionate and skilled developer who can help build a web-based platform using modern technologies, ensuring data security, ease of use, interoperability, and scalability.

Who We're Looking For

A young and creative full-stack developer (or advanced front-end/back-end developer) with experience in building web applications. The person will work closely with a technical person to translate existing Excel logic into a working online platform.

Required Skills and Qualifications
- Strong skills in web development frameworks (e.g., Django, Laravel, Node.js, or any other similar framework)
- Experience with front-end development (e.g.: React, Angular, Vue, etc)
- Proficiency in database management systems (MySQL, PostgreSQL, MongoDB, etc.)
- Ability to convert Excel formulas and logic into code
- Knowledge of user access controls and cloud storage integration
- Ability to work independently and meet deadlines

Key Responsibilities
- Review and understand the existing Excel-based tool
- Design database structure and application flow
- Build the application interface and logic
- Set up user authentication, role-based access, and secure data handling
- Implement functionality and integration for different features, tools, templates, checklists, and functions
- Provide regular updates and participate in testing and refinement
- Offer documentation or training guides for future users

How to Apply

Send the following documents to ibigi.tz@gmail.com

1. Your Detailed **CV**,
2. Your Budget per day for web-application development (**NB:** exact number of days will be agreed upon during contract negotiations)
3. A short paragraph describing your interest and capability on the project.
